ALUMINUM HANDRAILS

Picket Railing

Picket Railing is simple, attractive, and strong. Widely specified for commercial and residential applications, Picket Railing utilizes 3/4" square vertical pickets. Choose any one of our standard top rail options.

Glass Railing

Use Glass Railing for properties that are view-oriented. Glass railing gives buildings a sophisticated appeal. Our railing system uses 1/4" tempered glass with polished edges. Glass railing also serves as effective wind barriers, further enhancing the outdoor balcony environment.

Stainless Cable Railing

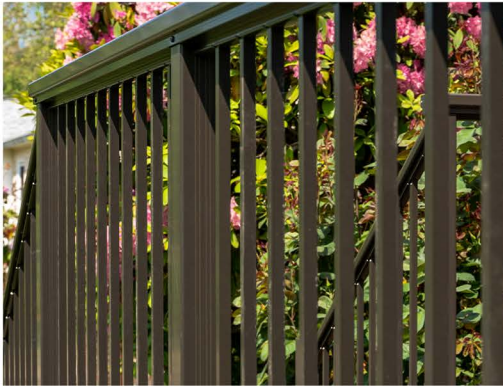

Stainless Cable Railing is perfect for projects that desire a more contemporary or nautical feel. Using quality 316 stainless steel cable and stainless steel hardware, our Stainless Cable Railing performs in the harshest of conditions. Typical applications utilize horizontal cables spaced 3" on center.

BUILDING STRONGER COMMUNITY

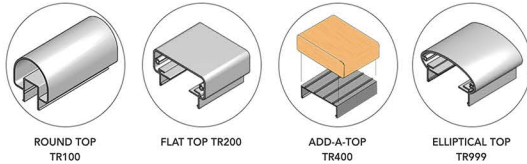

Rick's Custom Fencing & Decking extends heartfelt thanks to American Structure and Design for their generous material donations. Since 2020, this partnership has empowered us to fulfill wishes for three Make-A-Wish families, creating dream spaces that bring joy and hope. Together, we're building more than just structures; we're building memories that last a lifetime.
